CAREER OBJECTIVE

4th-year B. Tech CSE student specializing in IOT with expertise in python , JavaScript, and java. Experienced in developing hardware AI integrated projects and applications. Seeking internship to apply technical skills, deliver innovative solutions, and gain industry experience in a tech environment.

SKILLS

- **Programming Languages:** python , java(basics) , javascript
- **Data Structure and algo:** Arrays, Linked list, Stack, Queue, Hashing, Graphs, Loops
- **Core CSE subjects:** OPPS, DBMS, OS, CN, TAFL, DAA, DSA
- **Web technologies:** HTML, CSS, JS, REACT, NodeJS
- **DATA Base:** MySQL
- **Tools:** Github, VScode, Flutter, MongoDB, ArduinoIDE, Micro Controllers, Sensors, Docker
- **Soft Skills:** Problem Solving, Teamwork, Leadership, Mentorship, Communication

INTERNSHIP

- **Project trainee intern at ncle system pvt ltd At Noida**

Academic Projects

1. AURA Mind - IoT-AI Mental Health Platform

Developed AI-powered mental health system integrating smart wearables (EEG headband, AI glasses, smart earbuds) with cloud AI backend. Built Node.js/Express platform connecting multiple AI models (Grok, OpenAI, Gemini) for real-time stress detection via brainwave analysis. Implemented 40-minute productivity cycles with autonomous AI Clone—after 80 minutes work, system auto-activates Safe Mode and manages user tasks during mandatory rest. Created voice-controlled interface with document scanning through smart glasses and emergency intervention protocols for elevated stress detection. Tech Stack: Node.js, Express, IOT Sensors (EEG/Camera/Audio), Multi-AI Integration, Speech APIs, Computer Vision, Cloud

Technologies Used: Java, Python, CSS, HTML, JS, Github, VScode, Python Libraries

Implimented: DSA, API Keys, Web Technologies, Full Stack

2. Robo car using esp 8266(with voice control)

I created a robo car using esp 8266 in my iot project which runs on voice command also.

Technologies Used: ArduinoIDE, HTML, Flutter

Education

- B.Tech, Computer Science & Engineering Raj Kumar Goel Institute Of Technology
- Senior Secondary (CBSE KV SCHOOL Ghaziabad)
- Secondary (CBSE K.V. SCHOOL Ghaziabad)

Professional Training

- Python Course From Dr Angela Yu - Udemy
- Javascript By Jonas Schemdtmann - Udemy
- Java By Tim Buchalka - Udemy

Achievements & Activities

- I conducted and participated also in a robo war event and won the first prize in college campus.
- Participated in SIH 2025 and selected at college level.

Certifications

- Python Course From Dr Angela Yu Aug 2025 - Udemy
- Javascript By Jonas Schemdtmann Aug 2025 - Udemy
- Java By Tim Buchalka Aug 2025 – Udemy

Extra-Curricular Activities

- Technical Head in campus society – Electrazz
- **Activity**
 - I conducted and participated also in a robo war event and won the first prize in college campus. (May/2025)
 - Organized Mega event – The Greate Escape from Electrazz (Feb/2026)
